

DLA Distribution Red River

Customer: DLA Distribution – Red River, Texas

Building Series: G15

Application: Two Warehouses

The Need

The Defense Logistics Agency needed durable, inexpensive, modular [fabric warehouses](#) that could be erected quickly on existing hard surface areas and provide a 20 year operational use period.

The Intention

The two fabric warehouses, 70' wide by 225' long and 70' wide by 125' long, are equipped with 12' by 12' overhead doors, two (2) personnel doors, ventilation systems, and T-5 Lighting packages. The warehouses are constructed with G15 hot dipped galvanized steel frames designed to accommodate insulation and sprinkler systems and resist wind speeds exceeding 115mph. The exterior fabric membrane is a 28 oz. /sq. yd. Shelter-Rite PVC coated fabric. Shelter-Rite fabric, manufactured in the USA, provides warranted durability, UV protection, and cost-effectiveness.

The Solution

We Believe in our Buildings

Shelter Structures is a specialized team of professionals created to provide innovative solutions for a wide range of high profile clients. We pride ourselves on service before and after the sale. We stand behind our buildings and will work with you every step of the way to ensure that you get the exact building solution you need. Our buildings are usually manufactured in 6-8 weeks and can be shipped anywhere in the world.
